

# PLUS Temporal Image Forensics Dataset (PLUSTIFDS) License Agreement, Version 14.03.2025

## Introduction

The Paris Lodron University of Salzburg Temporal Image Forensics Dataset (PLUSTIFDS) is a temporal image forensics dataset where content bias is limited. Usually, images taken in close temporal proximity (i.e., belonging to the same age class) share common scene properties (aka content bias). With the PLUSTIFDS, the idea is to extract the artifacts and noise introduced by the image acquisition pipeline (which contains the age traces) from the acquired calibration images (i.e., Dark Field Images (DFI) and Bright Field Images (BFI)) where content bias should be limited. This dataset is made publicly available for research and non-commercial purposes in order to stimulate and support the research in the area of temporal image forensics. The Wavelab Group at the University of Salzburg, Salzburg, AUSTRIA (henceforth, PLUS) owns the copyright of this database and is responsible for the distribution of the database.

In order to request a copy of the PLUSTIFDS, this consent form has to be filled in, signed and submitted in written form to the PLUS principal investigator by the researcher's institution or on behalf of the individual researcher or research organisation. By signing it, the authorised researcher agrees to observe the restrictions listed below. In addition to other possible remedies, failure to observe these restrictions may result in revocation of permission to use the data as well as denial of access to additional databases distributed by PLUS. The PLUSTIFDS will be made available online free of charge.

## Consent

Researchers requesting the PLUSTIFDS agree to the following restrictions on the database:

1. Redistribution: Without prior approval from the PLUS Principal Investigator, the PLUSTIFDS, in whole or in part, will not be further distributed, published, copied, or disseminated in any way or form whatsoever, whether for profit or not. This does not prohibit the usage by others within the researcher's university, organisation, or company for research purposes.
2. Modification and commercial use: Without prior approval from PLUS, the PLUSTIFDS, in whole or in part, may not be modified or used for commercial purposes. The license granted herein is specifically for the internal research purposes of researcher, and the researcher shall not duplicate or use the disclosed PLUSTIFDS, its contents, or any seal, logo, mark, or phrase associated with or owned by PLUS to manufacture, promote, or sell products or technologies (or portions thereof) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of PLUS.
3. Requests for the database: All requests for the PLUSTIFDS must be directed to the PLUS Principal Investigator in the form of a signed copy of this agreement. If the request is granted, the researcher will receive access instructions.
4. Publication requirements: Those seeking to include renderings of more than 10 images from the PLUSTIFDS in reports, papers, and other documents to be published or released must first obtain approval in writing from the PLUS Principal Investigator. The PLUSTIFDS images should not be used in any way that could cause the original subject embarrassment or mental anguish.
5. Citation: All documents and papers that report on research that uses the PLUSTIFDS must acknowledge the use of the dataset by including a citation of the paper: *R. Joechl and A. Uhl, "PLUS Temporal Image Forensics Dataset," 2024 IEEE International Workshop on Information Forensics and Security (WIFS), Rome, Italy, 2024, pp. 1-6, doi: 10.1109/WIFS61860.2024.10810689.*

6. Publications to PLUS: A copy of all reports and papers that are for public or general release that use the PLUSTIFDS must be forwarded immediately upon release or publication to the PLUS Principal Investigator.
7. Indemnification: Researcher agrees to indemnify, defend, and hold harmless the Paris Lodron University of Salzburg (PLUS) and its board of managers, officers, employees and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgments or expenses resulting from researcher's use of the PLUSTIFDS.
